

Anaconda Cloud Suite

Data Science and AI Made Easy

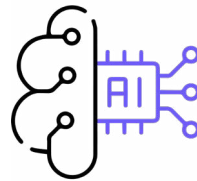

Available across tiers for Cloud customers, the Cloud Suite offers data science, machine learning, and AI teams a robust set of tools to seamlessly build and deploy. Our cloud offerings include Cloud Notebooks which allow you to easily share across teams, creating more efficient workflows and faster feedback loops. Cloud users can also deploy applications to the web without needing complex development skills. Cloud Suite also comes with access to Anaconda Learning to help you level up your AI, ML, and data science skills and get step-by-step instruction taught by experts.

Cloud Suite comes with:

Cloud Notebooks

Jumpstart your work with sample projects from our data catalogs or start from scratch.

AI Assistant

An AI-powered chatbot that can help you write, debug, and analyze code directly in your Notebook.

Navigator

Access to the most popular data science and AI packages on your desktop.

Learning

Take advantage of hundreds of hours of courses from beginner to expert level.
